

## About the Sports Medicine Center at Children's Colorado

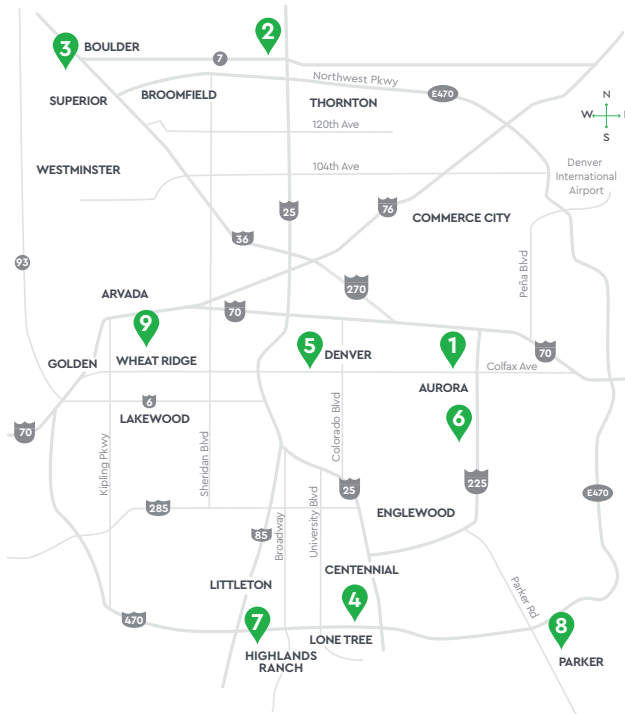

Our Sports Medicine Center leads the region in state-of-the-art treatment for developing athletes. From maximizing diet to changing the game in concussion research, our fully integrated team of physicians, athletic trainers, physical therapists, dietitians and specialists delivers a comprehensive care experience geared exclusively to growing bodies. And it's all backed by one of the top 10 pediatric hospitals in the U.S.

## What does having Certified Athletic Trainers mean for you as a student athlete?

Certified Athletic Trainers (ATs) are healthcare providers specially trained in injury and illness prevention, clinical evaluation and diagnosis, immediate and emergency care, and treatment and rehabilitation of injuries and illnesses in athletes. An AT has a bachelor's or master's degree from an accredited professional athletic training education program. In addition, ATs must pass a comprehensive board certification test and meet continuing education requirements to maintain certification. ATs work under the direction of physicians.

- Free injury assessments and recommendations for follow-up care
- Injury management, education and prevention
- Functional rehabilitation

## Meet your Certified Athletic Trainer

**Kyle Poole LAT, ATC, NREMT**

Before starting work with Children's Hospital Colorado, Kyle worked as an Athletic Trainer for Oxford Physical Therapy Centers in Oxford, OH. He worked primarily within the clinic before spearheading their outreach program responsibilities through a partnership with the YMCA and the Cincinnati Sirens Women's Soccer program. Kyle spent the majority of his life in Cincinnati, OH. He attended Miami University (OH) where he received his Bachelor's of Science Degree in Athletic Training and has since joined the Colorado Air National Guard as a medic where he obtained his Emergency Medical Technician certification. Kyle spends his downtime hiking, biking, camping or cruising the tailwinds as pilot-in-command. He looks forward to furthering Children's Hospital's mission of a healthier youth population
